## Summary

Full-Stack Developer with 10+ years of experience in web application development. Specialized in PHP and frameworks such as Laravel, Yii2, and Zend Framework, with strong expertise in JavaScript and React. Skilled in software architecture, project management, and full integration of backend and frontend for complex projects in legal, financial, and media sectors.

## Work Experience

### Arman Tadbir Brokerage – Tehran (2020 – 2025)

- Designed and implemented a customer club system using Laravel (Livewire & REST API).
- Integrated frontend with Next.js to enhance user experience.
- Coordinated technical and design teams for seamless project delivery.

### Dadsun – Tehran (2019 – 2020)

- Developed backend architecture with Laravel for a lawyer-client matching platform.
- Built web services to facilitate communication between clients and lawyers.

### Aseman Ltd – Tehran (2014 – 2019)

- Developed a multimedia platform with Yii2 for digital content (books, music, videos).

### Teanab – Tehran (2014 – 2016)

- Built backend systems with Zend Framework 2.
- Automated testing with Selenium to improve software quality.

## Skills

Programming & Frameworks: PHP (Laravel, Yii2, ZF2), JavaScript (React, Next.js, Livewire, Node.js)

Tools & Technologies: Docker, Git, Jenkins, Elasticsearch

OS & Server: Linux (Advanced), Nginx

Architecture & Development: REST API, Frontend-Backend Integration

Soft Skills: Team Leadership, Problem Solving, Time Management, Effective Communication

## Key Projects

### Customer Club Platform – Arman Tadbir Brokerage – armanbroker.ir

Tech Stack: Laravel, Next.js, Docker

Role: Full-Stack Developer & Project Manager

Achievement: Integrated with Sejam and OMS systems, reducing authentication time.

### Lawyer Matching Platform (Dadsun) – dudsun.app

Tech Stack: Laravel, Next.js

Role: Backend Developer

Achievement: Built core infrastructure enabling lawyer-client connections.

### Multimedia Platform (Iranplays) – iranplays.ir

Tech Stack: Yii2, FFMPEG

Role: Backend Developer & Manager

Achievement: Developed a robust system for managing and streaming multimedia content.

### Portfolio Management System (Pservat) – pservat.ir

Tech Stack: Laravel, Next.js

Role: Full-Stack Developer

Achievement: Improved user interaction and streamlined processes.

### Gift Card Platform – gholack.pservat.ir

Tech Stack: Laravel, Livewire, Ubuntu, Nginx, Git

Role: Frontend & Backend Developer

Achievement: Boosted employee motivation and integrated with stock exchange processes.

**Warehouse Management System (Tile Inventory)**

Tech Stack: Laravel, Livewire, Ubuntu, Nginx, Git

Role: Full-Stack Developer

Achievement: Optimized warehouse operations and real-time inventory visibility.

**Virtual Number WordPress Plugin**

Tech Stack: WordPress, VirtuNum API

Role: Plugin Developer

Achievement: Created a custom plugin for virtual numbers.

**Telegram Bot for Gold Exchange**

Tech Stack: PHP, Ubuntu, Git, Telegram API

Role: Developer

Achievement: Enabled gold exchange and asset management via Telegram.

**Telegram Bot 'Doblana' Game**

Tech Stack: PHP, Ubuntu, Git, Telegram API

Role: Developer

Achievement: Built an interactive game bot for engagement.

**Apachish Project – apachish**

Tech Stack: PHP, Livewire, Ubuntu, Nginx, Git

Role: Developer

Achievement: Developed web services for syncing packages (e.g., Resume package).

**Education & Certifications****Education:**

- B.Sc. in Software Engineering – University of Science and Culture (2008 – 2010)
- Associate Degree in Hardware & Software Engineering – University of Science and Culture (2005 – 2008)

**Certifications:**

- Laravel (PHP Framework) – Maktabkhooneh (2018)
- React JS Framework – Maktabkhooneh (2018)
